

HONG KONG TRAMWAYS 1996

Based on personal observation in September 1996.

Stops are generally unnamed unless they are termini. However, a coloured poster issued in the early 1980's did allocate names to many of them. Some names on this poster (reproduced in "Tramlines") do not correspond to current location of stops, and are not shown in this list. "Hong Kong Tramways" published in 1970 (LRTA) gives location of stops but no names. Many of the 1970 locations have been altered or are irrelevant due to redevelopment.

T - terminus. * name of stop as 1980's poster. + nameboard in 1992

. name shown refers to location of stop only.

id. stop in direction of list only. od. stop in other direction only.

location given after / is not part of 1980's name. Gauge: 3' 6"

Kennedy Town - Shaukeiwan

N1: id. stop possibly discontinued during reclamation work.

N2: and trams terminating here. N3: for trams terminating here only.
