Certain non-passenger locations shown in italics thus: (name);

'n' before consonants often shown as 'm' as pronounced (e.g. 'nm' as 'mm'). 'n' is the more correct, but both versions appear erratically in timetables, maps (e.g. the Tokyo Area Rail Map shows 'm') and on station nameboards.

Kita: north; Minami: south; Higashi: east; Nishi: west; Shin: new; Kami: upper; Shimo: lower; Naka: middle; Chūō: central; Onsen: spring; Mae: in front of; Eki: station; Guchi: gate; Bashi: bridge; Machi/Chō: town; Shi: city
op. opened; cl. closed; rn. renamed; rl. relocated; tm; terminus; all dates refer to passenger service;

+ names of closed stations translated using Google - some names may be incorrect, e.g. wrong "reading" of the Kanji symbols -
? names that could not be translated or translated into literal English, Pin-Yin (Chinese) etc; correct Romaji names required.
