

Based on Newfoundland Rly Public TTs 1899 (z), 1908 (a), 1920 (b), 1929 (c), 1954 (d) & 1964 (e), and VIA TT 1981 (f). Also, PTTs 1902 (n), 1914 (p), 1919 (q), 1925 (q2), 1934 (r) & 1938 (r2) and Canadian National TTs 1949 (s), 1951 (t) & 1959 (t2). (date)w: working TT.

Former names: [ ] Gauge 3' 6" Distances in miles generally per 1964 TT. Distances in TTs have varied slightly over the years due to resurvey and/or realignment. St. John's to Port-aux-Basques was given as 545.6 miles in 1923, 547.2 in 1929 and 547.8 in 1964. Distances to stations not in the 1964 TT have been adjusted to suit.

Newfoundland PTTs included some locations where trains did not stop. These are in addition to flag stops and it is unclear why they were shown. Until incorporation into CN TTs, times were shown with the note "Trains do not stop". Where no stop is given in any TT seen, names are shown in brackets.

tm = terminus of service at date shown z-f = zabcdef, etc.

# information from Narrow Gauge Rlys of Canada, Lavallée, and Rand McNally Atlas. pass? passenger service?
