*The England Railways tables are set out in 5 separate Lists based on the 4 major companies Nationalised in 1948 (Great Western, London Midland & Scottish, London & North Eastern and Southern) and London Transport. These are sub-divided into the major companies amalgamated at Grouping in 1923 & other railways.*

*U: unadvertised or locally advertised station with purpose.*

*h: heritage railway stations/halts; b: British Railways / National Rail (BR) & predecessors & other rlys stations on lines that became heritage railways; in general only heritage railways operating wholly or in part on these lines (including goods only lines) are included; a few others not on former railways are included if considered to offer an 'A' to 'B' passenger service.*

*NOT included: most funiculars & cliff rlys, people-movers & miniature rlys; station name "for" and county suffixes; stops for rail staff at signal boxes and similar (but included if also used by wives/family); temporary platforms for depot open days & one day events; ticket platforms (at which tickets were inspected) unless evidence found of official use by alighting or boarding passengers;*

*References to the other UK lists (>) with table number: GW: Great Western; LMS: London Midland & Scottish; LT\*: London Transport; SR: Southern; WA: Wales; SC\*: Scotland; NI: Northern Ireland. \*proposed*

*Connections (shown thus: >, or >>) to other lines are only included if used by scheduled passenger services (past and present) Lesser known and short-lived services using these connections are explained. Bradshaw sometimes added suffixes to station names in towns with several termini to aid location and were not part of the station name. These and any other descriptive text are shown in the list in italics. Some major operational & infrastructure locations are shown in bracketted italics.*

*Stations currently open for passengers shown in bold. All other stations closed to passengers.*

*For opening, closing, relocation and renaming dates, "for" & county station name suffixes, depot open day etc services, background information and source references, see Railway Passenger Stations in Great Britain, a Chronology by Michael Quick, available free on-line from the Railway & Canal Historical Society (RCHS) web-site.
